LUXURY WOOD FINISH

Polyurethane PU Finish

Known for its aesthetic appeal and inspiring elegance, it is available in both matt and gloss finish in clears, whites and 2200+ shades using tinting machine. It has best in class scratch, heat, stain and chemical resistance.

Acrylic Finish

This finish provides best in class transparency, elasticity and resistance to yellowing. Available in matt and gloss finish and is suitable for both interior and exterior surfaces.

Polyester Finish

It offers a mirror like gloss finish. It is particularly suitable for application where high film thickness is required. The finish is rebufferable for restoring the gloss after a few years.

Water Base

Specially formulated to provide reduced emissions and most suited for renovation projects and exterior applications due to their higher durability. It has higher coverage and shorter application time. Overall the finish is both user and environment friendly.
